Emperor Mussolini?
Mellon Pays
Character Counts
The Sun's Power
By Arthur Brisbane

MUSSOLINI does not plan to restore the old Roman empire and make himself emperor, he will play the part well, having the three necessities, energy, courage and looks. He talks like an emperor, in his latest war aims to Austria, on the Austrian "Tyrrol." "Honorific not words, but deeds will speak for me."

Mussolini says Italy needs a new aristocracy based on service and action. The Fascist say their leader "Cannot be confined within any law and is given to us by the will of God."

It sounds dangerous for the Italian royal family. The king, an honest man who has lived up to his obligation, showing good government in the Mussolini whirlwind, is after all an accident of birth. Mussolini is his own creation.

Papstom plans to get the Vatican on its side by granting limited temporal power to the Pope, restoring certain territory outside of the Vatican to the Pope, and paying damages for Papal property taken in the Garibaldi days.

That plan may not work smoothly, for the Pope has already denounced "any conception of the state which absorbs and monopolizes everything." Mussolini represents such a conception.

Uncle Sam sets a good example to the big crowd by getting rid of debt. In February, Mr. Mellon paid off \$9,000,000 of debt. The public is fortunate in obtaining the services of Mr. Mellon, perhaps the ablest business man in the United States, for less than one-tenth of one per cent. of his real value.

Individuals and character count, even in "cold-blooded" high finance.

Common stock of the Seaboard Air Line Railroad sold on Saturday at \$11. It sold last month at \$10.

The railroad is not less valuable than it was. Florida traffic, freight and passengers will soon be greater than ever. But Davies E. Warfield, who built up the Seaboard, knew how to appreciate its friends and fight its enemies, is dead.

It's easy to buy rails, locomotives and cars, but it is not easy to find great railroad men like Warfield, Hartman, Hill.

In United States business generally it is hard to find the \$50,000 a year man, still more difficult to find the \$250,000 man, quite easy to find the \$1000 a year man who thinks he ought to have \$50,000 a year.

Once science thought the world would last at most a few million years, because the sun "burning up" so rapidly, could not last longer. Physicists today geologists it was silly to say that the world had existed for hundreds of millions of years because the sun, big as it is, could not have gone on burning all that time.

Now we know the sun isn't merely a big bonfire, and a New York scientist boldly offers cash for the best thesis on "various of the sun's gigantic energy. It may be "intrastellar" or energy created by release of atomic energy under the sun's conditions of heat and pressure. It is surmised also that the sun possesses great masses of radio active material, supplying light and heat to our corner of the universe.

One thing is certain and can be proved. The sun's heat, light and power will continue to warm this little earth, big Jupiter and the rest of our planetary family.

FIND WAY FOR MRS. BOYER TO KEEP BABY

Detroit, March 5 (INS)—An assured future with Mrs. Myron Boyer, the only mother he has ever known, was indicated today for four-year-old Joseph Andrew Boyer, disowned "heir" to the Burroughs Adding Machine Company millions.

John L. Zurbrugg, district inspector of immigration, declared that if Mrs. Boyer appeared at his office an arrangement giving her custody of the child in this country probably could be entered into.

Mrs. Boyer obtained the boy from an unwed chambermaid in a Windsor, Ont., hotel and pretended he was her own. Mrs. Boyer admitted she passed the child off as her own "in an effort to preserve the Boyer home." Her husband, she said, was breaking away from home life because a child had not been born to them. The child ultimately had passed as Myron Boyer's son and had been named heir to a \$100,000 trust created by Joseph Boyer, chairman of the Burroughs Company.

Zurbrugg stated he would ask Mrs. Boyer to return with the boy to Windsor and obtain a visa from the American consul that she might bring him back to this country legally.

GIRL'S PLACE IS HOME, NOT AIR, SAYS ELDER

The American public, that epitome of Mrs. Grundy, still believes the place for women is in the home, according to Ruth Elder, famous aviatrix.

The bobbed brunette beauty with her Southern drawl, who arrived in Boston today for a week's theatrical engagement, spoke with the authority of experience.

"The first woman to attempt a flight over the Atlantic, which ended dramatically when her plane plunged into the ocean, Miss Elder has had ample opportunity to analyze the attitude of the public toward women fliers."

"The public doesn't want women fliers," she said somewhat plaintively. "They still think woman's place is in the kitchen concocting delicacies. Men may admire plucky girls but apparently they don't approve of them. Few men like to be outdone by women, particularly along lines which heretofore have been chiefly the province of the male."

"The majority of men still like the clinging vine type of woman, and as long as there are such men there will be clinging vines."

"I wouldn't encourage women to take up flying if they wish to win the affections of men. For ages and ages man has been the dominant sex, and it is his when woman goes ahead of him in his own field."

"We hear a lot about women being emancipated these days and really they are, but it doesn't make them any more popular with the males, unless it is on crowded street cars."

"The moment I took off last summer I realized what a crazy thing I was doing."

Phase Turns to Page 18, Column 2.

ASK INJUNCTION IN CAMBRIDGE RATE FIGHT

Declaring that rate-making by the Department of Public Utilities has become a political football, Attorney Robert G. Dodge said today at Cambridge Electric Light Co., Inc. today argued in Federal Court for an injunction against rate orders entered by the state department.

The question was taken under advisement by Judge Charles L. Goodrich, who heard the arguments of counsel for both sides. Attorney Herman L. Thayer, of Lehigh Valley, Pa., speaking for the Public Utilities Commission.

The rate cut in question was from \$6.75 to \$6.00 per kilowatt hour, based chiefly on the power purchased by the company for rate-making purposes.

"Governor Butler, in making public utility rates, assumed that the Public Utilities Department was determined to keep the wheels of the industry rolling," Mr. Dodge advised that body to disavow such action on the part of the state.

The land on which the plant of the United States Steel Corp. and other steel-makers produces iron and steel is located near Erie, Pa., and is owned by Atty. Dodge.

Brakeman Bill started on a northbound freight from Boston to Melrose. The train was a mile long. He walked the whole length of the train, arriving at the front end just as it pulled into Melrose. The distance between the two cities is six miles, and the train was going 20 miles an hour. How far did Bill travel and at what speed?

It is assumed that the caboose was at the zero mile when the train started and the engine at Melrose station, the six-mile mark, when the train stopped.

William promenade on the western division of the Boston & Maine these days and the stretch on which he has his brain-teaser is from Boston to Melrose. Says he:

"The train was a mile long from engine to caboose. The caboose was kissing a bumper in the Boston yards when I climbed on top. Just as we started high-balls for the cities."

"I started walking and the engine started pulling up. We traveled 20 all the way to Melrose. That's six miles, and when the train stopped with its nose at the six-mile post, I just finished walking to the front."

"How far did I travel and at what speed?"

A ray of sunshine came to the editor as he read this.

"Alas, you mean how far did you walk?" he asked shyly.

"No," says Bill. "I mean how far did I travel and how fast?"

And with that he was gone.

If you can help, send your solution to Brakeman Puzzle Editor, Boston Evening American, 5 Winthrop sq., Boston. And hurry.

And we mustn't think we're safe just because of aren't conscious of offending.

For, once an odor becomes familiar to us, our own sense of smell becomes deadened to it—though it remains perfectly apparent to others. You've probably noticed that even fastidious

A Man calling for SAUSAGE

He saw the glint of frost on the roof of his front and caught a whiff of cold breeze coming in at the open window and so he sighs for sausage—served with Blue Label Ketchup.

The women of his family show no emotion over his appeal. "They haven't," said Col. Wilson said years ago in "The Poetry of Eating," "the slowest woman, the laziest that hold breath of air, that man have."

For men, sausage, made of young pork that has been fed on yellow corn and the "meat" of the hickory woods.

Made into round cakes and fried to a crunchy crispness on the outside, while the inside is rich and tender, there you have a dish, when served with Blue Label, that laughs at the chills in the air and the hungry, cold skies.

These five bottles represent five of the leading brands of ketchup, tested by the famous "Blindfold" jury. They picked out the best ketchup for (1) color, (2) flavor, and (3) smoothness and consistency. One ketchup won first choice on every point. It got 1425 as many votes as the second most popular brand. Ask your grocer for this first choice ketchup. Its name is Blue Label.

It is fitting that good things—good food and Blue Label Ketchup—should be served together, as they are in Blue Label homes by those fortunate people who have had health and appetite go hand in hand.

Wakes up the appetite!

THE DIFFERENT STEPS IN MAKING CHICKEN A LA KING

Different for Lunch

WHENEVER I stop to think that it took 4 pounds of fresh chicken just the time and trouble of broasting it, I make the 1-pound can of boned chicken that has permeated my plate in my poultry. I realize the economy as well as convenience of using this ready-to-use boned chicken.

In this canned boned chicken there is nothing but solid chicken meat—no bone, just the tender flavorful chicken in individual pieces—cooked sufficiently for ready use in sandwiches, salads and so on.

The next time you want something appetizingly different for a luncheon—something which can be prepared quickly and easily, try the chicken a la King illustrated on this page.

For those motor parties that we're already planning, for company, for the children's school lunches—in fact, for every occasion where you want tender chicken meat without the trouble of preparing it in the ordinary way—you'll find this boned chicken just the thing. And here's the recipe:

Chicken a la King—Melt 2 tbsp. of butter in a smooth heavy saucepan. Add 2 tbsp. of flour and stir until it bubbles. Then add 1 c. of milk and stir constantly until the sauce is smooth and thick. Season highly with salt, pepper, paprika and a dash of onion salt. Then add 1 large can of boned chicken, broken up into small pieces, and 2 tbsp. of chili sauce.

Then add 2 or 3 pimentos diced and a c. of canned mushrooms sliced and a c. of celery diced and parboiled until tender. Some people like to add a beaten egg just before serving the chicken. Garnish with parsley, toast points, garnished with parsley.

Leftover Lamb Is Utilized

WAYS of utilizing left-over lamb.

Lamb Croquettes
Chop 1 lb. cooked lamb very fine, season to taste, and mix with equal parts of thick white sauce (2 tbsp. of fat and 2 tbsp. of flour to 1 c. of milk). Shape into croquettes, and fry in deep fat. Serve with a border of green peas.

Quick Lamb Patties
QUICK lamb patties may be made by baking shells of pie crust in muffin pans and filling with left-over lamb and browned meat in a deep fat. Bake until the crust is done.

Lamb Pie
PUT cold lamb in small pieces. Cover with gravy. Season with salt and pepper. Sprinkle onion, put in a baking dish and heat thoroughly in the oven. Cover with a crust of baking powder biscuit dough. Return to the oven and bake until the crust is done.

ALL MARRIAGES COMPANIONATE, SAYS LINDSEY

Every Boston clergyman who performs a marriage performs a companionate marriage that holds that status until children arrive, Judge Ben B. Lindsey, famous jurist and proponent of the modern wedlock idea, asserted upon his arrival in the Hub today.

The former judge, who gained fame through his veneration of a debate on marriage, is in Boston to uphold the affirmative in a private tomorrow night with the Rev. Henry H. Croas, Methodist Episcopal pastor of Malden, on the subject: "Shall Companionate Marriage Be Legalized?"

In his interview, Judge Lindsey declared that a majority of married couples today are practicing companionate marriage, but because it is forbidden by church and state, such a marriage today is "bothered and blighted."

"The public doesn't get the idea at all," he declared. "Most people think that companionate marriage is a trial marital, free love or what some newspapers term 'hot wedlock.'"

He pointed out that marriage is not a ceremony but a substance. To stress his conviction in the foreign state of companionate marriage, Judge Lindsey cited four points that he believes should legalize the modern marriage.

They are in his own words:

"My first point to legalize the custom of modern marriage is to make birth control legal so that the wife is afforded the same freedom as the man."

"For the second point, I advocate divorce by mutual consent for childless couples after an effort at reconciliation, before a board of specialists, instead of in the present divorce courts."

"Ninety per cent of all such divorces are by mutual consent through subterfuge, fraud, perjury and collusion. Of course all this is illegal and without stabilization and direction, and we propose a 'Union of Human Welfare' to take its place."

HE DEFINES IT

"The third point is that alimony in cases of childless couples who mutually agree to a separation should not be the arbitrary right of the wife, but should be allowed where circumstances justify it."

"My last point is that the state should educate youth and married couples in the laws of life and life to equip them for the duties of marriage and parenthood."

Defining companionate marriage, Judge Lindsey said:

"It is nothing but the relation of sexes in marriage for other purposes than procreation. Yet this constitutes at least 80 to 90 per cent of all marriages."

of 1 such relations. But they are not. It is the reason that what is known as birth control is forbidden by church and the state. It is a foolish and absurd policy and very few people respect it."

He pointed out that one-half the children in this country are motherless by women that belong to the 10 per cent of the people who have only 5 per cent of the national income.

"I do not object to poor people having as many children as they wish, but I do object to their being crowded into it by the present system of our civilization," he said.

SEEK WRIT TO FREE HAPGOOD AND MARY

Willes-Barre, Pa., March 5.—Power Hapgood of New York, and his wife Mary Douglas Hapgood, a former Boston girl, were prisoners in the county jail today as authorities prepared to press a charge of facilitating a riot in connection with the Pitkin Mine killings.

Hapgood's attorneys may file a writ today to obtain their freedom.

Hapgood, his wife and John L. Pitkin were taken into custody Sunday after Mayor William H. Gillette of Pitkin, had secured permission for a public meeting in the square. The meeting was planned to take action on the murders of Alex. Campbell and Peter Henry Hapgood's leaders.

State police and Pitkin officers stood guard in front of the Armory at the hour of the proposed meeting. They dispersed the crowd and when Hapgood attempted to deliver a public speech, he was arrested.

His wife is alleged to have made some trouble and was also arrested. She was also held before Mayor Gillette's judges.

"Free speech is dead in Pitkin," Hapgood declared when arraigned before the mayor.

Free speech is not dead here, but it is better to have it dead than have dead citizens on the streets of our city," replied the mayor as he committed the trio to the county jail in defiance of Hapgood's claim.

Great Story on Life; Gripping as a Novel; Fascinating as a Movie

CHAPTER 18

WHILE life remains in the body, the duct glands furnish the necessary chemicals for heat and energy and for the preparation of materials for growth and repair. If they fail to supply fuel the body dies; if they fail to furnish building material the body stops growing. Let us assume that the duct glands do not fail. It then appears that the body which began as a fertilized ovum develops into a nine-pound infant in nine months. Why does it not develop into a nine-pound child in 90 months, or a 900-pound prodigy in 900 months? Even if it only kept up its first two years' rate of growth it would weigh 500 pounds in 24 years. It does not grow so big. It stops. Sometimes too soon—it is dwarfed; sometimes not soon enough—it is gigantic, though rarely, if ever, surpassing the nine feet three inches of Maclow, the Russian. But it stops.

Meanwhile the growing body keeps changing in size, shape, proportions. Certain parts or organs appear before others start to appear. For a while the brain grows faster than the motor mechanism at other times the motor mechanism grows more rapidly. The teeth have their special periods for growth. The infant's thigh bone at birth has 2,000,000 bone-building cells. When that bone is a finished unit produces it contains over 12,000,000 bone cells. Why stop at so few? How

MILLIONAIRE BOY IN ROMAN HONEYMOON

CARTOON MOUTH AND BRIDE LIVE IN CABIN

Chicago, March 5 (AP)—In a tiny "cottage cabin," 29 miles from Norfolk, Va., Frederick R. Johnson, 19-year-old heir to millions, and his bride of three weeks, who was Miss Lydia Davies of New York and Louisville, Ky., are spending a "back-to-nature" honeymoon. Chicago friends have just learned.

The bride also, 17, daughter of Mr. and Mrs. W. W. Davies, of New York and Louisville, is spending the honeymoon in a small of every in their lives. The bride and groom Johnson's job is to cut the wood and draw the water. The couple were quoted as saying they were "discovering the joys of the woods, and all the other things to do." They want to travel and "really see how people of the world are living—travel so that we can be part of them."

The wedding plans were arranged while the bride was in a carnival at Dorchester where Johnson was a sophomore. After their wedding they went to New York where they tried to get passage to Europe on a freighter. The bride's parents, anxious to persuade the couple to announce their marriage, finally succeeded in getting them to do so.

Frederick is the son of W. R. Johnson of Evanston, Ill.

MAYOR URGES STREET WORK TO AID JOBLESS

Mayor Nichols demanded today that the City Council take action on his street building program, calling for expenditure of more than \$1,600,000, and his plan for spending \$1,000,000 on construction of sewers.

He pointed out that the streets of the city are in a state of disrepair and that the city has made no provision for the future. He urged the council to take action on his plan for street building and sewer construction.

Cascara is Your Doctor's Choice

When Physicians pronounce you are the PERFECT laxative—why experiment with things that foul the system into action? Cascara, you know, is the bark of a tree, a natural and normal stimulus to the bowels.

The Indians, who used to chew this bark had no word in their language that meant "constipation". Perfect regularity is possible today, and to all of us. We have cascara in ideal form: the very delightful-tasting candy cascara given to pure cascara. Millions of others, unfortunately, have stuck to stronger stimulants and acquired only the laxative habit.

Your first cascara will demonstrate how THOROUGH this gentle laxative is. After all, your next surprise will be the length of time before you need another. Eventually, you'll see that cascara is unable to make the bowels move—thereafter of their own accord.

A modern druggist must stock many laxatives, but for your own good the druggist would rather have you ask for the inexpensive little box of cascara than any other.

THE MEDITATIONS OF A WIFE

By HELEN ROWLAND

The average man, Leap Year means merely that he will have to be a little more agile, in leaping from girl to girl, without losing his foothold on his freedom.

The trouble usually starts when a woman, who thinks she has the "olive branch" to a man's heart, discovers that he is syndicating his kisses.

When a man begins to have that faraway look in his eyes, while he is kissing you, what he sees is a new love girl in another woman's eyes.

A woman may agree to bury the hatchet after a quarrel, but she always marks the spot, so that she can go and dig it up again to re-enforce her next argument.

It's LOVE, when you can think of helping her with the dishes and carrying the vacuum-cleaner as "just a lot of fun."

The "companionate marriage" which looks so sensible and alluring to a girl of twenty, may be an

"A Standing Rebuke to Companionate Marriage"

"We wanted to do something in our small way," said Mrs. Jody, when she husbandly brought the picture in "to exhibit the untiring youth of this land—the thoughtless ones who seem to have the door that marriage is not a binding thing, if I am not mistaken."

Mrs. Jody says her husband has been suffering from asthma lately but otherwise seems to be feeling pretty good. She reports that the cures are coming out over Beverly Hills way. She brought the editor some white birds.

Good luck, Mrs. Jody.
